**Training**

**OSHA Hazard Communication Standard with GHS  
OSHA Enhanced Personal Protection Equipment Standard  
Hazardous/Residual Waste Management  
OSHA Control of Hazardous Energy (Lockout/Tagout) Standard**

---

Please find your attendance records for the above trainings.

1. Please, be reminded that you have an obligation to obtain and file SDS's (Safety Data Sheet) for every chemical product you have on-site at your facility. You must also label every portable container with the correct manufacturer and product name as well as the hazardous characteristics of that product.
2. Furthermore, you have an obligation to provide and enforce the use of personal protective equipment to all affected employees. The required personal protective equipment is detailed in your certified assessment. If you have any questions regarding the types of personal protective equipment required, please contact my office.
3. It is your legal duty to have the Control of Hazardous Energy (Lockout/Tagout) Written Program available to employees AT ALL TIMES. Be mindful to follow the requirements of your Written Program as provided for in our initial training. Specifically, be careful to maintain an accurate log of all equipment at least once per year. It is your obligation to conduct periodic inspections of your equipment at least once per year. Finally, if any equipment is serviced in-house, it is your duty to establish energy control procedures for each piece of maintained equipment.

You must retain a copy of the attached training attendance sheet as well as each individual acknowledgment form for your records in the event of an OSHA inspection. We will maintain the originals in our office.

Make sure all newly hired employees are briefed on each and every safety and health program in place at your organization. The employee must have an opportunity to review and discuss any questions they may have prior to completing the acknowledgment form. The completed acknowledgment form must be filed in the respective personnel file.

If you have any questions regarding these standards, please do not hesitate to contact my office.

**Training Materials**

I acknowledge, by my signature, that I have received, read and been given an opportunity to discuss any questions I may have regarding the above named training programs conducted by EDMC Safety & Health, LLC.

I acknowledge that the Enhanced Personal Protection Equipment Standard training program included a demonstration of fit testing, donning, doffing, adjusting and wearing of the equipment.

I acknowledge that it is my employer's obligation to provide this equipment, but my duty as an employee to use the equipment when performing a function, or using a product when the equipment is required by OSHA. I recognize that a failure to do so could result in discipline up to and including dismissal.

I acknowledge that it is my duty to care for and maintain the equipment in a manner consistent with the instructions I have received here today, as well as any instructions that accompanied the equipment upon issuance. I understand the equipment I use is the property of my employer.

Finally, I acknowledge that it is my duty to comply with all the safety and health policies of my employer.
